Mar 9, - Unless directed by your doctor, you shouldn't take OTC Zantac for longer than two weeks. If you take Zantac for stomach ulcers, it might take up to eight weeks before an ulcer heals. You should keep using the medication as your doctor prescribes and tell your doctor if your symptoms don't improve after six. Ranitidine is used to treat ulcers of the stomach and intestines and prevent them from coming back after they have healed. This medication is also used to treat certain stomach and throat (esophagus) problems (such as erosive esophagitis, gastroesophageal reflux disease-GERD, Zollinger-Ellison syndrome). It works by. Nov 14, - to relieve symptoms, swallow 1 tablet with a glass of water; to prevent symptoms, swallow 1 tablet with a glass of water 30 to 60 minutes before eating food or drinking beverages that cause heartburn; can be used up to twice daily (do not take more than 2 tablets in 24 hours). children under 12 years: ask a. Sep 13, - I recently went to urgent care for a nasty case of swimmer's ear. The doctor sent me on my way with two prescriptions--one for ear drops to knock out the infection, and one for mg Tylenol for the pain (just regular Tylenol, no codeine or anything). I didn't really think about it until now but a quick Google.
